Subject: Data Request - Recycled Water Availability

Hi John,

To reiterate our phone conversation, I need 2008 totals from VVWRA showing:

- 1) total effluent.
- 2) total amount of recycled (disinfected, title 22) waste water produced.
- 3) total amount of recycled (disinfected, title 22) waste water sent to the golf course.
- 4) total amount of recycled (disinfected, title 22, dechlorinated) waste water released to the Mojave River through the weir.
- 5) total amount of recycled (disinfected, title 22, dechlorinated) waste water obligated for release to the Mojave River through the weir under the DFG MOU.
- 6) total amount of recycled water (disinfected, title 22) available for "other" uses.

Once we have this information, we can finalize our analysis of your Petition to Amend the Conditions of Certification for the HDPP.

Thanks,

Casey W. Weaver, CEG
